DETAILED ACTION

Notice to Applicant

1. This communication is in response to the Amendment filed on 9/5/06. Claim 46 has been newly added. Claims 1-46 are pending.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-46 are rejected under 35 U.S.C. 103(a) as being unpatentable over Torma et al (5,365,425) in view of Lockwood et al (5,845,254), for substantially the same reasons given in the previous Office Action, and incorporated herein. Further reasons are presented hereinbelow.

(A). As per claim 46, Lockwood discloses the method further comprising the step of periodically distributing information on the average cost per service episode to the health service provider, for motivating the health service provider to more efficiently manage service episodes to keep their cost per service episode below the predetermined budgeted average (See Lockwood, Col.13, lines 30-39).

(B) Claims 1-45 have not been amended and are therefore rejected for the same reasons given in the previous Office Action, and incorporated herein.

Response to Arguments

4. Applicant's arguments filed on 9/5/06 with respect to claims 1-46 have been fully considered but they are not persuasive.

(A) At pages 12-14, Applicant's argues the followings:

(1) Neither Torma nor Lockwood teach or suggest compensating a provider by sharing a portion of cost savings resulting from a reduction in cost per service, as an incentive method of compensating providers by sharing a portion of cost savings is not anticipated, and are allowable for at least these reasons.

(2) Neither Torma nor Lockwood teach or suggest a method for motivating health service providers that includes sharing a portion of cost savings in service episodes, which portion is based upon the group's performance on a quality and/or patient satisfaction indicator.

(B) With respect to Applicant's first argument, Examiner respectfully submitted that He had relied upon the teachings of Torma for such a feature (See Col.12, lines 47-57). Therefore, Applicant's argument is non-persuasive and the rejection is hereby sustained.

(C) With respect to Applicant's first argument, Examiner respectfully submitted that He had relied upon the teachings of Torma for such a feature (See Col.11, lines 26-47). Therefore, Applicant's argument is non-persuasive and the rejection is hereby sustained.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
